

# National School Choice Week

**National School Choice Week** offers comprehensive, detailed, unbiased, and easy-to-use free resources for families wanting to learn about all k-12 schooling options available for their children.

A leading feature of National School Choice Week is the *Maryland School Choice Roadmap*. This Roadmap is a Maryland focused tool that explains school choices options and the unique features of the differing types of k-12 school; a guide for special education and a school selection device titled 'Search for Schools Near Me.' Visit National School Choice Week's Maryland School Choice webpage for tools and information related to school choice in Maryland.
